

Why do so many professionals stake their reputations on INTELICODE®?

Because we have built our reputation on quality, integrity, and a commitment to our customers.

If you are involved in coding, auditing, or education, we have the products and services you need. We have audit tools, coding tools, and educational materials that are user friendly and high quality at reasonable prices.

More than likely, you have heard positive comments from others about INTELICODE®. It has grown to become the most trusted software of its kind for auditing, education, and appeals. Our other products are following the same trend.

You can download a **FREE 30-Day** evaluation of any of our software products from our website or call to request a CD.

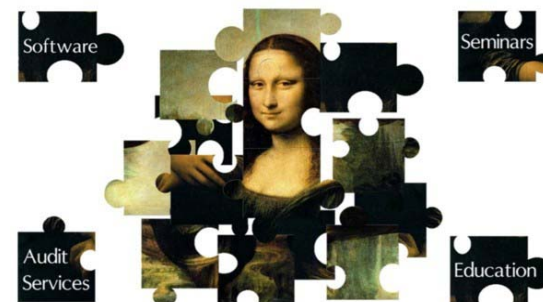

If you would like a walk-through of any of our software products don't hesitate to call. We believe our products sell themselves, and although we do not pressure or use other sales gimmicks, we will gladly answer any questions. We strive to give unparalleled service and will work with you as little or as much as you want even before becoming our customer.

If you would like to interact with other professionals in your field, join our Intelicode User's email list at our website.

Software for Auditing

INTELCODE® is the market leader when it comes to auditing software for E&M. Clinics, large and small, major universities, CPA firms, CMS contractors, insurance companies, expert witnesses, and consultants put their trust in INTELCODE®.

Our software is so easy to use that even the “computer dummy” can be auditing in a matter of minutes. If you know how to audit by hand you will know how to use INTELCODE®! Our reporting capability will free you from countless hours which you currently spend creating reports manually. Consistent audit results and time saved make INTELCODE® a wise investment.

Intelicode Solo™ Our entry-level auditing software for the small practice or clinic. It supports one database and is not intended to be networked.

Intelicode Pro™ Auditing software designed for consultants or those who need to audit multiple sites or provider groups. Supports multiple databases and works stand-alone and/or networked.

Intelicode P.A.T.H.™ Our most complete auditing software. This is a *MUST* for academic facilities, or those who review *Physicians At Teaching Hospitals*. Supports multiple databases and works stand-alone and/or networked.

“I consider Intelicode to be my #1 weapon in winning denials for bundled E/M services. It puts my providers on the same playing field as the health plans.”

Karen Hurley, CMM, CPC
President, HPMSI

“Intelicode has saved me so much time organizing reports. I can perform an audit in about half the time it used to take and use the detailed results for “one on one” physician education. Their technical support has been fantastic.”

Jan Rasmussen, CPC
AAPC Advisory Board Member
Professional Coding Solutions

Software for Coding

Intelicode S.M.A.R.T.™ A unique, and user-friendly coding software that can replace many of your coding manuals, including: CPT, ICD-9, HCPCs, Modifiers, CCI Edits, Surgical Crosslinks, CMS Fees, Payment Rules and Global Information.

Each search will look at ICD-9, CPT, and HCPC’s simultaneously. Search by code or by word. Add additional words to narrow your results. Once you have chosen a code you can easily see all of the relevant information pertaining to that code (i.e. fees, payment rules, RVU information, global information, bundling issues, and the diagnosis codes that can be billed for that CPT, based on your local medical review policy). You can even view the LMRP document that pertains to that code or group of codes. SMART even enables you to pick a diagnosis and see which CPT’s can be billed!

Here are some other features of S.M.A.R.T.:

- ◆ Our “Edit Check” lets you put in up to 8 CPT codes and will show any bundling issues while ranking them in order of their relative value.
- ◆ “Bookmarks” allow you to save your common searches and your commonly used codes.
- ◆ S.M.A.R.T also has a built-in web browser with links to useful sites like CMS, OIG, LMRP, Federal Register, etc. You can save your favorite sites too!
- ◆ S.M.A.R.T is updated each quarter to keep you current.
- ◆ S.M.A.R.T costs less than you currently spend on your books.

“It is incredible! I have access to ICD-9, CPT, HCPCs, CCI edits, web links, modifiers, and a CrossLink all in one program! It has web links to LMRP’s CMS, OIG and many other sites. I was totally amazed that I could plug in a CPT code in the CrossLink form and it would bring up all the diagnosis codes that could be billed appropriately.”

Pat Larabee, CPC
InterMed

Seminars

CEU Approved

The Art of E & M Auditing™ workshops “When it comes to E&M, we wrote the book”. Our workshops show you the techniques and tools that the pro’s use. Simply stated: You will leave our hands-on workshop better equipped to deal with the complex world of E&M.

“I am a first time auditor & left the seminar with a good understanding of all concepts. Very good training personnel. Has very good “group” explanations. Using own experience examples very helpful. I would recommend this trainer for anyone doing or interested in doing auditing.”

Jennifer Bond
Lexington Clinic

“I was very impressed with this seminar. I found the presenter to be extremely knowledgeable & the handout materials above average. I will definitely recommend this seminar to my colleagues.”
